

OUR KEY MESSAGES

OUR CAMPAIGN IS CHALLENGING THE PLANNING & SUITABILITY OF THE SITE FOR AN ASYLUM CENTRE.

Large isolated sites are not the right place.

WE BELIEVE DECISIONS SHOULD BE EVIDENCE-BASED AND TRANSPARENT, SUPPORTED BY MEANINGFUL PUBLIC CONSULTATION.

This proposal should not proceed without clear evidence of environmental, infrastructure and public services capacity, and that communities have been consulted.

WE ARE ASKING FOR TRANSPARENCY EVIDENCE AND PROPER PLANNING.

Our campaign is about ensuring decisions are made responsibly with due regard for local infrastructure.

OUR CAMPAIGN IS ABOUT THE PROPOSAL – NOT THE INDIVIDUALS.

Our focus is on planning, infrastructure, transparency and safeguarding our communities.

WE ARE BUILDING A LEGAL CHALLENGE.

We are committed to ensuring decisions affecting our communities are lawful, evidence-based and in the public interest.
