WRONG PLAN. WRONG SITE.

DEMANDING EVIDENCE | PROTECTING OUR COMMUNITIES | BETTER PLANNING BETTER DECISIONS

SAFEGUARDING OUR COMMUNITIES

WRONG PLAN. WRONG SITE.

Challenge the proposed asylum accommodation at MOD Bicester Site A

Around **1,250 single adult men** are proposed for asylum accommodation at MOD Bicester Site A.

We believe a proposal this large must be shown to **protect** local communities, **safeguard** women and children, and be **suitable** and properly **planned** before it proceeds.

TOO BIG. TOO ISOLATED. **TOO MANY UNANSWERED QUESTIONS.**

- Is the site suitable?
- Can local infrastructure cope?
- What will this mean for your community?
- Where is the evidence?

PROTECT our communities

WHY WE BELIEVE THIS PROPOSAL NEEDS PROPER SCRUTINY

1 **Scale and location**
Around 1,250 single adult men are proposed to be accommodated at this rural former military site. We believe the scale and location require much greater scrutiny.

2 **Roads, services and infrastructure**
Questions remain around transport, pedestrian safety, healthcare, utilities, drainage, emergency services and other local infrastructure. Capacity should be demonstrated, not assumed.

3 **Evidence and transparency**
The Government should publish the assessments and evidence supporting the proposal so they can be independently scrutinised. Local communities should also have a meaningful opportunity to understand, question and respond to the proposal.

4 **Impact on local communities**
The Government should properly assess what a development of this scale would mean for surrounding communities, including safety, community wellbeing and the cumulative impact on everyday life.

WHAT CAN YOU DO?
